TILDA Derived Variables Codebook
Wave 2

This codebook contains information on additional variables included in the TILDA Wave 2 dataset. Notes on how the variable was derived are included where necessary.

A list of the original variables used for derivation are included. Please note that not all original variables are included in released versions of the datasets.

Where possible, details of any original documentation relating to scale scoring or information are included.

For any further enquires on variables not listed here, please refer to the TILDA release guide available on the ISSDA website or contact the TILDA team (tilda@tcd.ie).

Classifiers

**edu_level**
Description: Highest education level completed by the respondent.

1. Some primary (not complete)
2. Primary or equivalent
3. Intermediate/junior/group certificate or equivalent
4. Leaving cert or equivalent
5. Diploma
6. Primary degree
7. Postgraduate/higher degree
96. None

Variables used:
dm001, dm001a, dm025
SES Section
Socio-economic status variables

All social class and socio-economic group variables are coded as per the CSO’s social coding scheme.

The social class categories are as follows:
1. Professional Workers
2. Managerial and Technical
3. Non-manual
4. Skilled Manual
5. Semi-Skilled
6. Unskilled
-9. Unknown/Refused/Never worked

W2socialclass
Description: Respondent’s social class.

Variables used:
we001, we007, we103, we218, we613

For more information on how social class has been determined by the CSO, please refer to http://www.cso.ie/en/media/csoie/census/documents/pser_appendix2.pdf
**Functional Limitations**  
**Activities of Daily Living**

**ADL_num**  
Description: Indicator variable for number of ADLs.

Notes: *This variable is not comparable with TILDA Wave 1.*

ADLs included:
- Dressing
- Walking across a room
- Bathing or showering
- Eating, such as cutting up your food
- Getting in our out of bed
- Using the toilet, including getting up or down

0 = None  
1 = Single ADL  
2 = Multiple ADLs (2+)

Variables used:
fl002_01 - fl002_06

**IADL_num**  
Description: Indicator variable for number of IADLs.

IADLs included:
- Preparing a hot meal
- Doing household chores
- Shopping for groceries
- Making telephone calls
- Taking medications
- Managing money, such as paying bills and keeping track of expenses

0 = None  
1 = Single IADL  
2 = Multiple IADLs (2+)

Variables used:
fl025_01 - fl025_06
ADL_reported
Description: Indicator variable for respondents who have reported any ADL.
Notes: This variable is not comparable with TILDA Wave 1.
Response options:
0 = No
1 = Yes
Variables used:
fl002_01 - fl002_06

ADL_helper
Description: Indicator variable for respondents report having help for their ADL(s).
Notes: This variable is not comparable with TILDA Wave 1.
Response options:
0 = No
1 = Yes
Variables used:
fl005, fl008, fl011, fl013, fl016, fl019

IADL_reported
Description: Indicator variable for respondents who have reported any IADLs.
Response options:
0 = No
1 = Yes
Variables used:
fl025_01 - fl025_06
**IADL_helper**
Description: Indicator variable for respondents report having help for their IADL(s).

Response options:
0 = No  
1 = Yes

Variables used:
fl026, fl029, fl030, fl031

**adla**
Description: Reports number of ADLs from list of 5.
ADLs included:
- Difficulty bathing or showering
- Dressing
- Eating, such as cutting up your food
- Getting in or out of bed
- Walking across a room.

0 = None
1 = Single ADL
2 = 2-3 ADLs
4 = 4+ ADLs

Variables used:
fl002_01 - fl002_05
**adlwa**
Description: Number of Wallace and Herzog proposed ADLs: 0-3.

ADLs included:

- Difficulty bathing or showering
- Dressing
- Eating, such as cutting up your food

0 = None
1 = Single ADL
2 = 2-3 ADLs
4 = 4+ ADLs

Notes:

Variables used:
fl002_01, fl002_03, fl002_04

**iadla**
Description: Reports number of IADLs from list of 3.

IADLs included:

- Making telephone calls
- Taking medications
- Managing money, such as paying bills and keeping track of expenses

Variables used:
fl025_04 – fl025_06
iadlza
Description: Reports number of IADLs from list of 5.

IADLs included:
- Preparing a hot meal
- Shopping for groceries
- Making telephone calls
- Taking medications
- Managing money, such as paying bills and keeping track of expenses

Variables used:
fl025_01, fl025_03, fl025_04, fl025_05, fl025_06

mobilb
Description: ADL & IADL mobility index: 0-4.

Limitations included:
- Walking 100 meters (100 yards)
- Walking across a room
- Climbing several flights of stairs
- Climbing one flight of stairs without resting

Variables used:
fl001_01, fl001_05, fl001_06, fl002_02

lgmusa
Description: ADL & IADL large muscle index: 0-4.

Limitations included:
- Sitting for about two hours
- Getting up from a chair after sitting for long periods
- Stooping, kneeling or crouching
- Pulling or pushing large objects like a living room chair

Variables used:
fl001_03, fl001_04, fl001_07, fl001_09
**gossa**
Description: ADL & IADL gross motor index: 0-5.

Limitations included:
- Walking 100 meters
- Walking across a room
- Climbing one flight of stairs without resting for long periods
- Getting in or out of bed
- Bathing or showering

Variables used:
fl001_01, fl001_06, fl002_02, fl002_05, fl002_03

**finea**
Description: ADL & IADL fine motor: 0-3.

Limitations included:
- Picking up a small coin from a table
- Eating, such as cutting up your food
- Dressing

Variables used:
fl001_11, fl002_01, fl002_04
**MHcesd_capi**

Description: Overall result of the CES-D scale.

Notes: CES-D is set as missing if any scale question has a missing response.

Response options for scale questions (mh001-mh020):

1 = Rarely or none of the time (less than 1 day)
2 = Some or a little of the time (1-2 days)
3 = Occasionally or a moderate amount of time (3-4 days)
4 = All of the time (5-7 days)

Scoring is as follows –

mh001, mh002, mh003, mh005, mh006, mh007, mh009, mh010, mh011, mh013, mh014, mh015, mh017, mh018, mh019, mh020:

The scale adds the value of the participant’s response minus 1.

E.G. For response “Some of a little of the time”, a 1 would be added to the scale result (2 – 1 = 1).

mh004, mh008, mh012, mh016:

The scale adds 4 minus the value of the participant’s response

E.G. For response “Some or a little of the time”, a 2 would be added to the scale result (4 – 2 = 2)

Variables used:

mh001 - mh020

Further information:

MHcasp19_total
Description: Overall result including all domains of the CASP-19 scale.

Notes: SCQ only. CASP scale is set as missing if any question has a missing response.

Response Options:
1 = Often
2 = Not often
3 = Sometimes
4 = Never

Scoring is as follows –
SCQCASp1, 2, 4, 6, 8 and 9 are reverse scored.

SCQCASp1, SCQCASp2, SCQCASp4, SCQCASp6, SCQCASp8, SCQCASp9:
The scale adds the value of the participant’s response minus 1.
E.G. For question SCQCASp1, with the response “Not Often”, a 1 would be added to the scale result (2 – 1 = 1).

SCQCASp3, SCQCASp5, SCQCASp7, SCQCASp10, SCQCASp11, SCQCASp12, SCQCASp13, SCQCASp14, SCQCASp15, SCQCASp16, SCQCASp17, SCQCASp18, SCQCASp19:
The scale adds 4 minus the value of the participant’s response
E.G. For question SCQCASp3, with the response “Not often”, a 2 would be added to the scale result (4 – 2 = 2)

Variables used:
SCQCASp1 – SCQCASp19

Further information:
MHcasp19_control
Description: Result of the control domain of the CASP-19 scale.
Notes: SCQ only

Response Options:
1 = Often
2 = Not often
3 = Sometimes
4 = Never

The control domain includes the CASP1 – CASP4 items.
SCQCASP1, 2 and 4, are reverse scored.

Variables used:
SCQCASP1 – SCQCASP4
For more details on scoring, please refer to MHcasp19_total

MHcasp19_autonomy
Description: Result of the autonomy domain of the CASP-19 scale.
Notes: SCQ only

Response Options:
1 = Often
2 = Not often
3 = Sometimes
4 = Never

The control domain includes the CASP5 – CASP9 items.
SCQCASP6, 8 and 9, are reverse scored.

Variables used:
SCQCASP5 – SCQCASP9
For more details on scoring, please refer to MHcasp19_total
**MHcasp19_pleasure**
Description: Result of the pleasure domain of the CASP-19 scale.
Notes: SCQ only

Response Options:
1 = Often
2 = Not often
3 = Sometimes
4 = Never

The control domain includes the CASP10 – CASP14 items.

Variables used:
SCQCASP10 – SCQCASP14
For more details on scoring, please refer to MHcasp19_total

**MHcasp19_selfreal**
Description: Result of the self-realisation domain of the CASP-19 scale.
Notes: SCQ only

Response Options:
1 = Often
2 = Not often
3 = Sometimes
4 = Never

The control domain includes the CASP15 – CASP19 items.

Variables used:
SCQCASP15 – SCQCASP19
For more details on scoring, please refer to MHcasp19_total
MHpennworry
Description: Overall result of the Penn State Worry scale.

Notes: SCQ only. Result is set to missing if any scale items have a missing response.

Response Options:
1 = Not at all typical
2 = In between
3 = Somewhat typical
4 = In between
5 = Very typical

Scoring:
The scale score is the result of all items added together. Each item is worth the value of their response option number.

Variables used:
SCQWORRY1 – SCQWORRY8

Further information:
MHucla_loneliness

Description: Overall result of the UCLA Loneliness scale.

Notes: SCQ only. Result is set to missing if any scale items have a missing response.

Response Options:
1 = Often
2 = Some of the time
3 = Hardly ever or never

Scoring:
Scoring is as follows –

SCQLoneLns1, 2, 3, 5:
The scale adds 3 minus the value of the participant’s response.
E.G. For response “Often”, a 2 would be added to the scale result (3 – 1 = 2).

SCQLoneLns4:
The scale adds value of the participant’s response minus 1
E.G. For response “Some of the time”, a 1 would be added to the scale result (2 – 1 = 1)

Variables used:
SCQLonels1 – SCQLonels5

Further information:
**MHcapi_loneliness**
Description: Frequency of loneliness taken from the CAPI questionnaire.
Notes: Don’t know/Refused set to missing. Cloned variable of mh014.

1 = Rare of never
2 = Some of the time
3 = Moderate amount of the time
4 = All of the time

Variables used:
mh014

**MHhadsa_capi**
Description: Overall result of the HADs anxiety scale.
Notes: HADs scale is set as missing if any question has missing response.

Scoring is as follows –

mh204, mh205:
The scale adds the value of the participant’s response minus 1.
E.G. For question mh204, with the response “Usually”, a 1 would be added to the scale result (2 – 1 = 1).

mh201, mh202, mh203, mh206, mh207:
The scale adds 4 minus the value of the participant’s response
E.G. For question mh201, with the response “A lot of the time”, a 2 would be added to the scale result (4 – 2 = 2)

Variables used:
mh201 – mh207

Further information:
**mmsescr_cap**

Description: Total scoring of the Mini Mental State Examination.

Notes: The MMSE was only asked in the health assessment in Wave 1 of TILDA. It is included in the CAPI for Wave 2.

The total MMSE score was calculated by summing the item scores across all 11 tasks, taking the higher score of either the WORLD or Serial 7’s (maximum 30 points).

A full comprehensive explanation of the MMSE scoring and tasks are included in the TILDA Release Notes.

Variables used:

ph121, ph126, ph122, ph123, ph127, ph128, ph129, ph130, ph131, ph132, ph133, ph134, ph135, ph136, ph137, ph138, ph139, ph140, ph141, ph146

**MHcidi_anxiety**

Description: Indicates whether respondent fulfils the DSM criteria for general anxiety disorder based on an episode lasting 6 months or longer.

Notes: Uses the Composite International Diagnostic Interview – Short Form (CIDI).

DSM-IV criteria code: 300.02 - Generalized anxiety disorder

Criteria is met if participant has had –

Period of worry lasting at least 5 months (mh301, mh302, mh304m, mh304y, mh305m, mh305y, mh304, mh305)

Severe worry (mh306, mh307, mh308, mh310)

Difficult to control worry (mh309, mh311, mh312)

Additional miscellaneous anxiety symptoms (mh314 – mh320)

Response options:

0 = No

1 = Yes

Variables used:

mh301, mh302, mh304m, mh304y, mh305m, mh305y, mh304, mh305, mh306, mh307, mh308, mh309, mh310, mh311, mh312, mh314, mh315, mh316, mh317, mh318, mh319, mh320
**MHCIDI Depression**

**Description:** Indicates whether respondent has had a major depressive episode in the past 12 months.

**Notes:** Uses the Composite International Diagnostic Interview – Short Form (CIDI).

**DSM-IV criteria code:** 300.4 Dysthymic disorder

There are two cases where participants are categorised as having a major depressive episode.

Participants who meet the criteria; has felt depressed or lost interest in most activities at least almost every day for at least most of the day in the past 12 months (mh101, mh102, mh103) are asked a number of additional depression symptoms (mh104, mh105, mh108, mh110, mh112, mh113). Those who meet the initial criteria and have 3 or more of the additional symptoms are coded as having had a major depressive episode.

Participants who meet the criteria; lost interest in most activities almost every day at least most of the day for two weeks or more in a row in the past 12 months (mh120, mh121, mh122) are asked a number of additional depression related symptoms (mh123, mh126, mh128, mh129, mh130, mh131). Those who meet the initial criteria and have 3 or more of the additional symptoms are coded as having had a major depressive episode.

**Response options:**

- 0 = No
- 1 = Yes

**Variables used:**

mh101, h102, mh103, mh120, mh121, mh122, mh104, mh105, mh108, mh110, mh112, mh113, mh123, mh126, mh128, mh129, mh130, mh131

**HU009_YN**

**Description:** Indicator variable for whether respondent has had a substantial procedure or test during an out-patient visit

**Notes:** Only asked of respondents who have indicated that they have had an out-patient visit in the last year.

**Response options:**

- 0 = No
- 1 = Yes
Variables used:

hu009

**MDpolypharmacy**
Description: Indicator variable for respondents who report more than five medications.

Response options:

0 = No
1 = Yes

Variables used:

md001medcode_1 - md001medcode_20
md001medname_1 – md001medname_20

**medcard**
Description: Indicates whether respondent has a medical card.

Response options:

0 = No
1 = Yes

Variables used:

hu001

**health_ins**
Description: Indicates whether respondent has health insurance.

Response options:

0 = No
1 = Yes

Variables used:

hu002
**ph726_08_to_11**
Description: Indicates whether respondent’s family has had any history of cancer.

Notes: Family includes primary or first-degree relatives.

Cancers included:
- Breast cancer
- Ovarian cancer
- Prostate cancer
- Colon Cancer

Response options:
- 0 = No
- 1 = Yes

Variables used:
- ph726_08, ph726_09, ph726_10, ph726_11

**smokcurr**
Description: Indicates whether respondent is a current smoker or not

Notes: Include all respondents who smoked in the past three months. Those who responded no in previous interviews are asked again and included if they now smoke.

Response options:
- 0 = No
- 1 = Yes

Variables used:
- bh001, bh002, bh002a, bh002b
ICD Codes
Incident cases of new diseases in Wave 2

TILDA Wave 2 uses the WHO International Statistical Classification of Diseases and Related Health Problems 10th Revision (ICD-10) to code incident cases of new conditions.

These variables apply only to new cases of conditions from Wave 1 to Wave 2. Any respondent with a condition is grouped into their relevant ICD code.

For more information on these and a full breakdown of all conditions included, please refer to http://www.who.int/classifications/icd/en/

**ICD10_01**
Description: Certain infectious and parasitic diseases

Response options:
0 = No
1 = Yes

Variables used:
N/A

**ICD10_02**
Description: Neoplasms

Response options:
0 = No
1 = Yes

Variables used:
ph301_05
**ICD10_03**
Description: Diseases of the blood

Response options:
0 = No  
1 = Yes

Variables used:
N/A

**ICD10_04**
Description: Endocrine, nutritional and metabolic diseases

Response options:
0 = No  
1 = Yes

Variables used:
ph201_05, ph201_08, ph301_15a

**ICD10_05**
Description: Mental and behaviour disorders

Response options:
0 = No  
1 = Yes

Variables used:
ph301_07, ph301_08, ph301_08a, ph301_09, ph301_10, ph301_11
**ICD10_06**
Description: Diseases of the nervous system

Response options:

0 = No  
1 = Yes

Variables used:

ph201_07, ph301_06

**ICD10_07**
Description: Diseases of the eye and adnexa

Response options:

0 = No  
1 = Yes

Variables used:

ph105_01 - ph105_95

**ICD10_08**
Description: Diseases of the ear and mastoid process

Response options:

0 = No  
1 = Yes

Variables used:

N/A
**ICD10_09**  
Description: Diseases of the circulatory system  

Response options:  

0 = No  
1 = Yes  

Variables used:  
ph201_01, ph201_02, ph201_03, ph201_04, ph201_06, ph201_09, ph201_10, ph201_11, ph201_95, ph301_13

**ICD10_10**  
Description: Diseases of the respiratory system  

Response options:  

0 = No  
1 = Yes  

Variables used:  
ph301_01, ph301_02

**ICD10_11**  
Description: Diseases of the digestive system  

Response options:  

0 = No  
1 = Yes  

Variables used:  
ph301_12, ph301_14
ICD10_12
Description: Diseases of the skin and subcutaneous tissue

Response options:
0 = No
1 = Yes

Variables used:
N/A

ICD10_13
Description: Diseases of the musculoskeletal system and connective tissue

Response options:
0 = No
1 = Yes

Variables used:
ph301_03, ph301_04

ICD10_14
Description: Diseases of the genitourinary system

Response options:
0 = No
1 = Yes

Variables used:
N/A
ICD10_15
Description: Conditions originating in the perinatal period

Response options:
0 = No
1 = Yes

Variables used:
N/A

ICD10_16
Description: Congenital malformations, deformations and chromosomal abnormalities

Response options:
0 = No
1 = Yes

Variables used:
N/A
**IPAQ**

*Derived results from the IPAQ questionnaire*

**minswalking**

Description: Number of minutes spent walking by respondent over past 7 days

Notes: Respondents are asked to record hours and minutes of time spent walking in the last 7 days. Hours are multiplied by 60 to generate overall minute count.

Includes any walking from place to place that lasted for 10 minutes or more.

Variables used:

bh106, bh106a

**minsmoderate**

Description: Number of minutes spent doing moderate physical activities by respondent in past 7 days

Notes: Respondents are asked to record hours and minutes of time spent doing moderate physical activities in the last 7 days. Hours are multiplied by 60 to generate overall minute count.

Moderate activity examples are carrying light loads, bicycling at a regular pace. Walking is not included.

Variables used:

bh104, bh104a

**minsvigorous**

Description: Number of minutes spent doing vigorous physical activities by respondent in past 7 days

Notes: Respondents are asked to record hours and minutes of time spent doing vigorous physical activities in the last 7 days. Hours are multiplied by 60 to generate overall minute count.

Physical activity examples are heavy lifting, digging, aerobics or fast bicycling. Includes any vigorous activity that lasted for 10 minutes or more.

Variables used:

bh102, bh102a
**walkingmet**  
Description: Met minutes spent walking by respondent over past 7 days  
Notes: Amount of time walking (bh106, bh106a) is calculated by multiplying by the combined hours and minutes by the number of days the respondent has spent on these activities for at least 10 minutes at a time (bh105). This result is multiplied by 3.3.

Variables used:  
bh105, bh106, bh106a

**moderatemet**  
Description: Met minutes spent doing moderate physical activities by respondent in past 7 days  
Notes: Amount of time spent on moderate activities (bh104, bh104a) is calculated by multiplying by the combined hours and minutes by the number of days the respondent has spent on these activities for at least 10 minutes at a time (bh103). This result is multiplied by 4.0.

Variables used:  
bh103, bh104, bh104a

**vigorousmet**  
Description: Met minutes spent doing vigorous physical activities by respondent in past 7 days  
Notes: Amount of time spent on vigorous activities (bh102, bh102a) is calculated by multiplying by the combined hours and minutes by the number of days the respondent has spent on these activities for at least 10 minutes at a time (bh101). This result is multiplied by 8.0.

Variables used:  
bh101, bh102, bh102a

**IPAQmetminutes**  
Description: Total met (metabolic equivalent) minutes spent on vigorous activities, moderate activities and walking by the respondent in the past 7 days.  
Notes: Respondent is asked how many hours and minutes per day they spend on these activities. Max minutes are set to 180.

Variables used:  
bh101, bh102, bh102a, bh103 bh104, bh104a, bh105, bh106, bh106a

Further information:  
http://www.institutferran.org/documentos/scoring_short_ipaq_april04.pdf
**IPAQexercise3**  
Description: Categories of how much physical activity the respondent has engaged in.

Categories –

0 = Low  
1 = Moderate  
2 = High

Notes: Respondent is asked how many hours and minutes per day they spend on these activities. Max minutes are set to 180.

Scores are categorised as follows:

**Moderate activity:**
- Respondents who have spent 3 or more days doing 20 minutes of vigorous activity.
- Respondents who have spent 30 minutes or more walking and in moderate exercise for at least 5 days.
- Respondents who have 5 or more days of any activity totalling more than 600 met minutes.

**High Activity:**
- Respondents who have spent 3 or more days on vigorous activity totalling 1500 or more met minutes.
- Respondents who have spent 7 or more days on all activities totalling more than 3000 met minutes.

**Low activity:**
- Respondents who have answered the questions but do not meet the criteria for either the moderate or high activity categories.

Variables used:

bh101, bh102, bh102a, bh103 bh104, bh104a, bh105, bh106, bh106a
**Employment**

*Employment Status and Pensions*

**retired**
Description: Indicates whether respondent is retired.

Response options:

- 0 = No
- 1 = Yes

Variables used:

we001

**employ**
Description: Indicates whether respondent is employed or self-employed.

Response options:

- 0 = No
- 1 = Yes

Variables used:

we001

**pension_payIn**
Description: Indicates whether respondent pays into any occupational, PRSA or private pensions.

Notes: Only includes respondents who are not retired.

Response options:

- 0 = No
- 1 = Yes

Variables used:

we001, wr002, we301, wr401
pension_receiv
Description: Indicates whether respondent receives any pension payments – occupational, spousal, PSRA or private pension.

Response options:

0 = No
1 = Yes

Variables used:
si101, si201
Imputed Assets and Income
Imputed data from the Gateway to Global Aging Data repository

**G2Gh2atoth**
Description: Net value of house/primary residence.

Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging (www.g2aging.org/)

Variables used:

hw108, hw108a, hw113

**G2Gh2aftoth**
Description: Imputation flag for net value of house/primary residence

Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging (www.g2aging.org/)

Response options:

1 = Continuous value
2 = Closed range bracket
3 = Open range bracket
5 = No value/bracket
6 = No income
7 = Don’t know

Variables used:

hw108, hw108a, hw113
**G2Gh2atotf**
Description: Non-housing financial wealth.

Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging (www.g2aging.org/)

Variables used:
as103, as104, as101, as118, as116

---

**G2Gh2aftotf**
Description: Imputation flag for non-housing financial wealth.

Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging (www.g2aging.org/)

Response options:
1 = Continuous value
2 = Closed range bracket
3= Open range bracket
5 = No value/bracket
6 = No income
7 = Don’t know

Variables used:
as103, as104, as101, as118, as116
**G2Gh2atoth**
Description: Total all assets including second home.

Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging ([www.g2aging.org/](http://www.g2aging.org/))

Variables used:

as111, as120, as108, as103, as104, as101, as118, as112, as113, as116, wr311, wr412, hw108, hw108a, hw113

---

**G2Gh2aftotb**
Description: Imputation flag for total all assets including second home.

Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging ([www.g2aging.org/](http://www.g2aging.org/))

Response options:

1 = Continuous value
2 = Closed range bracket
3 = Open range bracket
5 = No value/bracket
6 = No income
7 = Don’t know

Variables used:

as111, as120, as108, as103, as104, as101, as118, as112, as113, as116, wr311, wr412, hw108, hw108a, hw113
**G2Gh2icap**  
Description: Total capital income.  
Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging ([www.g2aging.org/](http://www.g2aging.org/))  

Variables used:  
we207, we208, we209, we215, we315, we316, we305, we305_u1, hw107, as110, as115

**G2Gh2ifcap**  
Description: Imputation flag for total capital income.  
Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging ([www.g2aging.org/](http://www.g2aging.org/))  

Response options:  
1 = Continuous value  
2 = Closed range bracket  
3 = Open range bracket  
5 = No value/bracket  
6 = No income  
7 = Don’t know

Variables used:  
we207, we208, we209, we215, we315, we316, we305, we305_u1, hw107, as110, as115
**G2Gr2ipubpen**
Description: Respondent’s public pensions.
Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging (www.g2aging.org/)

Variables used:
si303, si305, si307, si309, si311, si315, si317

**G2Gr2ifpubpen**
Description: Imputation flag for respondent’s public pensions.
Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging (www.g2aging.org/)

Response options:
1 = Continuous value
2 = Closed range bracket
3 = Open range bracket
5 = No value/bracket
6 = No income
7 = Don’t know

Variables used:
si303, si305, si307, si309, si311, si315, si317
G2Gs2ipubpen
Description: Spouse’s public pensions.
Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging (www.g2aging.org/)

Variables used:
si303, si305, si307, si309, si311, si315, si317

G2Gs2ipubpen
Description: Imputation flag for spouse’s public pensions.
Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging (www.g2aging.org/)

Response options:
1 = Continuous value
2 = Closed range bracket
3 = Open range bracket
5 = No value/bracket
6 = No income
7 = Don’t know

Variables used:
si303, si305, si307, si309, si311, si315, si317
**G2Gh2itot**  
Description: Total couple level income.  
Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging ([www.g2aging.org/](http://www.g2aging.org/))

Variables used:

we114, we130, we131, we207, we208, we209, we215, we315, we305, we305_u1, hw107, as110, as115, si109, si207, si112, si210, si402, si303, si305, si307, si309, si311, si315, si317, we314, we313, si329, si327, si325, si325e, si325d, si325c, si325b, si323, si321, si319, si313

**G2Gh2iftot**  
Description: Imputation flag for total couple level income.  
Notes: This is an imputed variable - Imputation process developed by Gateway to Global Aging ([www.g2aging.org/](http://www.g2aging.org/))

Response options:

1 = Continuous value  
2 = Closed range bracket  
3 = Open range bracket  
5 = No value/bracket  
6 = No income  
7 = Don’t know

Variables used:

we130, we146, we147, we148, we207, we208, we215, we315, we305, hw107, as110, as102, as105, as115, si109, si207, si112, si210, si402, si303, si305, si307, si309, si311, si315, si317, we314, we313, si329, si327, si325, si325e, si325d, si325c, si325b, si323, si321, si319, si313
